6. AUDITOR'S FINANCIAL REPORT

Stefan Novak, Property Manager, turned the meeting over to the Auditor, Mr. Nicholas Ralph, who presented the financial statements for the year ending December 31, 2013.

He highlighted that the Independent Auditor's Report, Balance Sheet, Statement of Operating Fund and Fund Balance, Statement of Reserve Fund And Fund Balance, Statement of Cash Flows and Notes to Financial Statements.

Mr. Nicholas Ralph, stated that he is presenting what is known as a standard audit report, along with the professional opinion on the numbers provided within the statements.

Moreover, Mr. Nicholas Ralph, stated that in his opinion the Financial Statements present fairly, in all material respects, the Financial Position of Carleton Condominium Corporation No. 276 as at December 31, 2013 and its Financial Performance and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organization.

Furthermore, Mr. Nicholas Ralph noted that the Corporation, as required by the Condominium Act 1998, has established a Reserve Fund to finance future major repair and replacement of the common elements and assets of the Corporation. The Reserve Fund study is done every three years and the challenge is to have sufficient funds as per engineer's recommendations.

The Reserve Fund Study suggests that future allocations to the Reserve Fund be \$102,950 a year through 2018 inclusive, increasing thereafter at the rate of inflation, which the Reserve Fund Study assumes to be 2.5% a year.

The years in which various works were suggested to take place by the Reserve Fund Study, the aggregate expenditures suggested by the Reserve Fund Study and the actual expenditures from the Reserve Fund, for the two years ended December 31, 2013, and the variances between them, were \$ 218,452.00. The suggested amount by the engineer was \$ 443,050.00. The Actual amount spent was \$ 224,598.00

Any evaluation of the adequacy of the Reserve Fund is based upon assumptions as to the future interest and inflation rates and estimates of the life expectancy of the building components and their replacements costs. These factors are subject to the change over time and the changes may be material: accordingly, the Condominium Act requires the Reserve Fund studies be updated every three years.

NOTE: The variances, and the differences in timing of suggested and actual expenditures, may have a negative effect on the adequacy of the Reserve Funds.

Mr. Nicholas Ralph pointed out that the Operating funds are slightly in deficit in the amount of \$ 10,716.00.

Mr. Nicholas Ralph itemized that the necessity to increase contributions (in accordance under subsection 94(8) of the Condominium Act 1998) to ensure sufficient future funding of the operating and reserve fund.
