10. Forms

The Property Manager, Stefan Novak highlighted the forms that were included in tonight's AGM package and noted their importance:

- Proxy forms were provided for tonight's meeting and are available for owners unable to attend the meeting. They refer to general matters discussed at the meeting and for the election process.
- It is law in Ontario to have completed smoke detector and carbon monoxide forms indicating that each unit has functioning smoke alarms on every storey of each unit. Mr. Novak requested that the form be completed and returned to the Property Manager. It was also noted that an alarm should be placed on the floor of the garage as well.
- The insurance certificate is provided for information only to homeowners.

11. General Discussion and New Business

- A homeowner asked if all the money collected from the special assessment is simply to recoup the deficit in the operating account.

- The special assessment is to bump up the operating fund, but will not recoup the reserve fund. However if there are excess funds in the operating, some amounts can be allocated into reserve, they call this “due to reserve”.
- A new Reserve Fund Study will be done this year and we will have to see what the engineer says, but if we look at previous studies there was never any money for roofing. Unfortunately the shingles only lasted approximately 15 years when they should have lasted 25 years. So there hasn’t been enough time to ensure enough money is in the reserve fund.
- Why was there such a bad job done? Stefan Novak noted that we will now get 40 year shingles which are a much better product. Offhand the cost is about \$3,500 per unit.
- A homeowner asked how you arrive at a decision on the contractor and materials you will use. Five estimates were received and the decision to choose Godfried was made. They provided the middle estimate, as it was not cheapest, but they were recommended. It is not worth putting in the cheap shingles as these will be stronger and we are hoping for no leaks.
- Mr. Doug Whelan, #415 Sandhamn Private said that some roofing was completed before the winter set in and all shingles sat out in the winter. So all material that the owners are paying for sat over the winter.
- It was noted that current water expenses are exponentially high. A homeowner noted that this year’s budgeted amount should have been just as much as last year.
- It was suggested that we try to save money through changing toilets and shower heads etc. The total amount spent equates to approximately \$966 per unit. The average amount spent in an Ottawa home is approximately \$1,200 per year, so we are doing pretty well considering that there are a lot of rentals within the property.
- It was asked whether there is any money for an increase of snow removal. There will be a charge of \$4,000 for the overage from the winter season. The contract amount was \$10,057, so with the increase of \$4,000 we are still well within the budgeted amount. Stefan Novak noted that the contractor is Grandview with Dylan as our main contact.
- The planned expenditures for decks and fences in 2016 was \$73,868. We will have to focus on this for the next little while. However the Property Manager wants to move some funds to the decks as there is a possible structural issue with the fact that the deck is currently attached to the house and leaking. In some instances there are units that only have drywall on the outside and no plywood.
- As part of this year’s Reserve Fund Study update, Stefan Novak is hoping to update the study to allocate funds toward the decks.
- The following units will be reviewed: 453, 466, 470, 476, 492, and 496.
- It is hoped that the whole block will be done.
- Last year one block received new roofs (428 – 478).
- Ms. Julia Monorchio, #505 Sandhamn Private said that her roof is falling apart. They are planning to do the roofs in stages. One block needs to be done now (447 – 461) and 8 units will be done.
- Ms. Nina Muraviova, #494 Sandhamn Private feels that the roofing is expensive for the size of the homes and wonders why the price is so high per unit. How do you choose who you hire. As noted earlier, we received five estimates and chose depending on their prices and associated warranties.

- The Property Manager reminded everyone that the Board is elected to manage and make decisions on each owner's interests. It was noted that more inspections need to be done to ensure proper work is completed.
- It was confirmed that five driveways will be replaced this year.
- We plan on continuing to do front door, driveways, decks, roofs.
- Ms. Elsie Comeau asked if we could work on the roofs as there are leaks.
- Ms. Julia Monorchio, #505 Sandhamn Private asked that after they finish their report are residents able to see a list of work and who is doing the work. A newsletter will be provided that should include this type of information to inform residents of what is happening.
- Did the grounds company do the eavestrough cleaning yet? Quite some time ago it was agreed that a cleaning would be done once a year. It was noted that the cleaning occurred last year on September 13th when there were still leaves left to fall.
- Stefan Novak said that eavestroughs are the owner's responsibility.
- It was noted that some residents would like to produce a condominium web page which they plan to do at no cost to the condominium.
- A homeowner asked if they could see the estimates on the upcoming work for the roofing. Once the reserve fund study is completed, it can be provided to all homeowners for their information.
- Homeowners are allowed to see any condominium documents that they would like, but this must be arranged with the Property Manager and done at CMG's office. Documents can and will not be e-mailed to individual homeowners.
- It was noted that a spring inspection has yet to be completed. It will list all work that needs to be completed this year.
- If a homeowner wants to take down an existing deck they can, however before installing something new, they must obtain Board approval.
- Due to a shortage of funds allocated to the operating fund, a special assessment was necessary in the amount of \$56,880.00 as approved by the Board on April 20, 2017 to alleviate this deficit. The special assessment amount of \$720 per unit was discussed and can either be paid as a one-time lump sum or over a 6 month period at \$120 each month.
- It would be ideal to start the special assessment on July 1st to end December 1st.
- Homeowners simply need to send an e-mail to the Stefan Novak the Property Manager stating that they "authorize CMG to take 'X' amount as an automatic withdrawal".
- A letter will be sent to confirm the arrangements.
- As well, cheques can also be dropped off at the site office.
- Ms. Janet Buske-Wichser, #501 Sandhamn Private motioned and Mr. Michael Bailey, #498 Sandhamn Private seconded to adopt this special assessment and the payment arrangements as noted above. **CARRIED**
- Ms. Elsie Comeau, #484 Sandhamn Private said that there are letters from Councillor Diane Deans and the City regarding the pathways and new connecting bike paths. They will be redone this year. Extra letters are available if anyone is interested in reading them.
- Ms. Comeau noted that she has been on the Board since November 23, 2016 and has been the only board member attending meetings. She nominated Ms. Suzanne Fanasch in

December. A Board should be able to expect and have their President attend all meetings, but that didn't happen.

- Seven years ago there were alternate members in case of emergencies, which is not a bad idea as you just don't know what might happen.
- To conclude the meeting, Ms. Elsie Comeau, #484 Sandhamn Private provided a short summary of what she has seen and done around the property during the number of years that she has lived in the condominium and been present on the Board of Directors.

12. Adjournment of Meeting

There being no further general discussion and no further business to conduct, Ms. Natalie Fougere, #492 Sandhamn Private motioned and Mr. Guy Gagnon, #432 Sandhamn Private seconded to adjourn the Annual General Meeting of Carleton Condominium Corporation No. 276 at 9:12 p.m.
