Motion: Approve the minutes of June 16, 2021

Moved: J. Monorchio (505 Sandhamn Private)

Seconded By: C. Archar (466 Sandhamn Private)

All in favor

Motion Carried

Presidents Report

C. Dunn reported on the following:

The financials are on track to what the Board expected for the year as the budgeted items were on par with the "Actual" numbers. The condominium saved some money in a few areas this year, water being one of the larger savings.

Project that they are looking to have done this year are:

Window Seals are not scheduled for replacement any time soon in the Reserve Fund Study Therefore they have been changing 3-4 of them a year. They are having a Reserve Fund Study completed with a site visit in 2023. The list of units that need window seals repair will be factored into this study. There is a current running list that is looked at each spring during the spring inception.

Decks have been repaired and/or replaced last year and will continue again this year. Unfortunately, due to the derecho that occurred there are some new damages to decks and fences that will need to be a priority to have repaired.

There is one more year left on their winter contract with All-in-One Landscaping, and it was suggested to have cancelled due to the performance of their work in 2021-22 season, this would be something for the new Board that is elected tonight to discuss at their first Board Meeting.

P. Roberts (423 Sandhamn Private) commented that the equipment has been driven over the lawn and ripping up big pieces of sod. C. Dunn responded there were a lot of problem like that and despite talking with the contractor and being promised that it would not happen again, it did.

C. Hendriks (458 Sandhamn Private) asked if this was the same company that completes the summer maintenance. C. Dunn responded that yes All-in-One Landscaping has the summer contract as well.

Water damages at 405/406 in the garage, several companies quoted on the scope of work for repairs and the contractor who was awarded the work was Rego Salvage. The work took longer than anticipated to have completed and turned out to be more expensive than what was quoted on. This same contractor was scheduled to make repairs at 468 and 417 foundations however due to the experience at 405/406 the Board cancelled the work order. The Board then hired an engineer to assess 468 & 417 foundations and they found out via a report that they are not structural issues it is just surface (cosmetic) repairs.

Fences are in very rough shape, and they are not scheduled to be replaced until 2029. In the current Reserve Fund Study, they had set aside \$6,000 every three years to make repairs as needed until then. C. Dunn asked if they should wait until 2029 or if they can move up the replacement of the fences earlier. It all boils down to if they have enough funds in the Reserve Fund to cover it.

There are garage sills that need repair as well, they have noted 5 that are in bad shape.

Eavestroughing will be cleaned this summer we are just waiting on an ETA from Eaves Experts.

Garage Door Frames are scheduled to be capped with metal so this will eliminate the need to

paint and make repairs on them moving forward.

The hot water tank and furnace will be replaced in the site office as well. The water heater is a rental and for use it gets we are not going to replace it we are going to look into an on-demand water heater. The furnace must be replaced, as it was almost flagged by the technician who serviced it.

Roadways patches were completed last year however over the winter some more asphalt has come up. They were scheduled to be redone in the past and the work was postponed and now they are slated to be done in 2025. C. Dunn advised owners that so far, the Reserve Fund is on track to meet that suggested date however the prices that were quoted were done in 2020 and do not reflect today's market.

C. Dunn noted to owners that CCC276 has the second lowest condo fees in Ottawa South, the only other street that has low condo fees is the condo next door and that is because they had a \$9,000 special assessment per unit 4-5 years ago to complete all their siding. CCC276 is having more leaks each year and advised owner that it may come sooner than later to get this siding work done. D. Dunn asked who would be in favor of having higher condo fees (raise more than 2 or 3 %) and try to avoid a special assessment?

J. Monorchio (505 Sandhamn Private) noted that the updated Reserve Fund Study will reevaluate the order in which these projects should be prioritized. J. Monorchio also stated that it may be a good idea to have a combination of an increase of condo fees and a small special assessment.

M. Parks-McInnes (408 Sandhamn Private) noted that she agrees with what C. Dunn is for increasing the condo fees over a period of time.

J. Forsythe (490 Sandhamn Private) stated she would be in agreeance with an increase of \$450.00 per month for the condo fees.

J. Monorchio (505 Sandhamn Private) advised owners that the correct way to do this is to estimate what actual costs will be and raise the fees by whatever percentage is necessary to cover those costs.

Questions from Presidents Report:

M. Aristegui– asked for clarification and that if the siding work C. Dunn spoke off includes repairs to the brick as well as they have damaged bricks that need to be addressed.

N. Monette confirmed that they are on a list to have this brick work completed.

Election of three (3) Directors

C. Dunn announced there are three (3) positions available, each for a one (1) year term.

C. Dunn (450 Sandhamn Private) and G. Missio (455 Sandhamn Private) has brought their name forward for re-election. M. Dubey (506 Sandhamn Private) and C. Hendriks (458 Sandhamn Private) brought their names forward.

Each candidate was given a turn to speak about themselves and why they are running for the Board of Directors.

A poll was conducted, and the votes were tallied with the proxies.

C. Dunn votes	26
J. Missio votes	15
C. Hendriks votes	16
M. Dubey votes	12

C. Dunn (450 Sandhamn Private), G. Missio (455 Sandhamn Private) and C. Hendriks (458 Sandhamn Private) were acclaimed to the Board of Directors.

Resident Elect was determined that C. Dunn was the resident elect position with a majority vote.

Presentation – Smoking Policy J. Forsythe (490 Sandhamn Private)

J. Forsythe (490 Sandhamn Private) had prepared a presentation on CCC276 adopting a smoking policy It is attached to these minutes as an appendix.

C. Dunn commented that in the presentation that it stated CCC276 could save on insurance. The Board has investigated that, and they would not save any money as the risk is so low now. What it used to be 15-20 years ago is very different from today. A smoking policy may help individuals who have their own home policy, but not the corporation. This was advised by the Corporations Insurance provider Atrens Counsel.

M. Dubey (506 Sandhamn Private) asked if they could have a vote at the meeting tonight to see if there was a majority in favor of implementing a smoking policy

C. Dunn advised owners that they were not taking a vote tonight as not all owners are in attendance of the meeting but that a survey may be completed and circulated at a later date.

A discussion regarding the smoking policy ensued between owners and it was decided to launch

a poll asking owners present at the meeting if CCC276 should implement a smoking policy.

There were more in favor of implementing policy but there is still some objection as well.

Owners thanked J. Forsythe for the presentation.

General Discussion

E. Comeau (484 Sandhamn Private) advised owners that she is interested in starting up the neighborhood watch again. She was delivered a bunch of pamphlets and registration forms by the police however due to the pandemic she was unable to go door to door to talk to the owners.

C. Dunn noted there has not been a neighborhood watch in 7-8 years he noted that if anyone is interested to please see Elsie.

E. Comeau (484 Sandhamn Private) asked if some of the trees going to be trimmed in the common areas? C. Dunn responded that some trees were trimmed last year, and nothing was scheduled for this year. They will look at the budget to see if they can have it done in the following year.

J. Monorchio (505 Sandhamn Private) noted that the arborist advised the condo board they only need to have the trees trimmed every two years.

E. Comeau (484 Sandhamn Private) asked if the corporation insured enough for the storms that have been coming through. Who is responsible for repairs? C. Dunn responded that the condominium would be responsible for damages to the common elements (trees, decks, etc.).

Adjournment

The meeting was adjourned _____ PM
