The independent auditors report states the audit was carried out in accordance with Canadian accounting standards for not-for-profit organizations and the financial statements present fairly, in all material respects, the financial position of the Corporation at its fiscal year end. The financial statements prepared by McCay Duff, for the fiscal year ending December 31, 2022 included:

- Statement of Financial Position

Navas confirmed the Board was not being remunerated for their services of being on the Board. The office expenses are listed as postage and printing, and other administrative costs.

V. Peck (459) asked why the corporation would pay for visitor parking patrols as it seems wasteful to them and those funds could be used for other items such as the pressing maintenance issues. The Board confirmed that their responsibilities not only include ensuring maintenance is getting done, but also to ensure the rules in place are being followed as stated. The parking patrols are a way to enforce the visitor parking rules currently in place.

11. GENERAL DISCUSSION

AN owner had asked for the following items to be discussed at the AGM: discussion on items approved on the common elements, the increase of letter and signage and the signage on the mailboxes.

P. Roberts (423) stated that the mailboxes belonged to Canada Post and no owners should be posting flyers or items on government property. The Board stated they could look at adding to the rules that posting on the mailboxes were prohibited.

J. Forsythe (490) stated that the walkways leading to the bike paths are very dangerous with the potholes and cracking. The Board confirmed they can look at doing patch work until the replacement is scheduled in a few years.

P. Roberts (423) asked if the Board would consider taking the office that is not being currently used and turning it into an apartment to be rented out to offset some costs. The Board would review at their next Board meeting.

J. Ramsahoye (503) asked about the installation of a screen door. It was stated that the addition of a screen door to the front doors would assist in the snow drifts that occur over the winter, as well as add a layer of security. The Board confirmed that the doors were not originally installed with screen doors, and the corporation can only replace what was original to the corporation. The addition of screen doors would be considered a modification however it needs to be determined if the addition of a screen door would void the warranty of the doors currently in place. Owners were reminded that all modifications need to be registered on title, at the cost of the owners.

J. Monorochio (505) asked for an update on the fence repairs from the storm last year. J. Sigouin confirmed she would look into this.

J. Monorochio (505) asked for an update on the reserve fund study. C. Dunn confirmed that it was underway. J. Sigouin confirmed that the work was awarded to Keller Engineering and were in the beginning stages of getting it completed.

T. Tran (438) asked what the interest rate on the reserve fund account was. J. Sigouin asked the owner to provide her this request in writing in an email and she can locate that information for them.

J. Monorochio (505) requested to have access to the study. C. Dunn confirmed the current study is on the corporation's website.

S. Mainuddin (421) asked if it was possible for each unit to monitor their own water usage. C. Dunn confirmed that the water usage is monitored per block and not per unit. Previous Boards have looked into having the usage per unit as opposed to per block and it was too expensive to pursue at this time.

E. Comeau (484) was concerned that people from the surrounding area were using the visitor parking and were dumping their garbage on the ground in visitor parking. The Board confirms they will review this at their next Board meeting.

E. Comeau (484) stated that the light fixtures were not turning on. J. Sigouin confirmed she could have an electrician out to inspect the light fixtures.

E. Comeau (484) asked if the damage to lawns from the snow removal would be fixed. J. Sigouin asked for all owners experiencing damage to their lawn to email her with the specifics so she could reach out to the snow removal contractor.

E. Comeau (484) commented on the landscaping of the property, including yards not being properly upkept. The Board confirmed a spring inspection was completed and letters would be sent to owners with concerns shortly.
