Subject: Notice of Approved 2024 Budget and Condominium Fee Adjustment

Dear Owners of Carleton Condominium Corporation No. 276,

We trust this message finds each of you in good health and spirits. The Board of Directors has approved the 2024 Budget for Carleton Condominium Corporation No. 276. This decision is the outcome of a comprehensive review encompassing Operating Costs, present and projected Reserve Fund prerequisites, and a thorough evaluation of the current assets within the condominium.

Effective January 1st, 2024, there will be an adjustment in condominium fees, resulting in a 36% increase for the upcoming fiscal year, setting the new monthly condominium fee at \$557.00.

In adherence to future capital demands, replacements, and essential repairs for the Corporation, the Board has mandated a 100% increase in reserve fund contributions for Fiscal Year 2024, now totaling \$252,000.

For your reference and records, an enclosed budget details the breakdown of operating expenses and the imperative Reserve Fund contributions. Furthermore, enclosed is a letter from the President on behalf of the Board for your reference.

To facilitate seamless fee payments, we offer the following payment options:

Pre-Authorized Payment Plan:

Our pre-authorized payment plan remains available for owners. To enroll or authorize Special Assessment payments, please contact Daphne MacEachern of our accounting department at 613-237-9519 ext. 393 or dmaceachern@condogroup.ca.

Post-Dated Cheques:

If you prefer issuing post-dated cheques, please send a series of twelve (12) cheques dated January 1st, 2024, through December 31st, 2024, payable to Carleton Condominium Corporation No. 276. Please arrange for their delivery either by mail or drop-off to 434 Queen Street, Ottawa, Ontario, K1R 7V7, no later than December 15, 2023.

Should you have any inquiries or require further information, we encourage you to address your concerns in writing to the Board of Directors, care of the undersigned.

We deeply appreciate your understanding, cooperation, and support in this matter.

On behalf of the Board of Directors, I extend warm wishes for a safe and joyous holiday season to you and your family.

Kind Regards,

On Behalf of the Board of Directors, CCC 276,

Julie Sigouin

Subject: Necessary Increase in Condo Fees

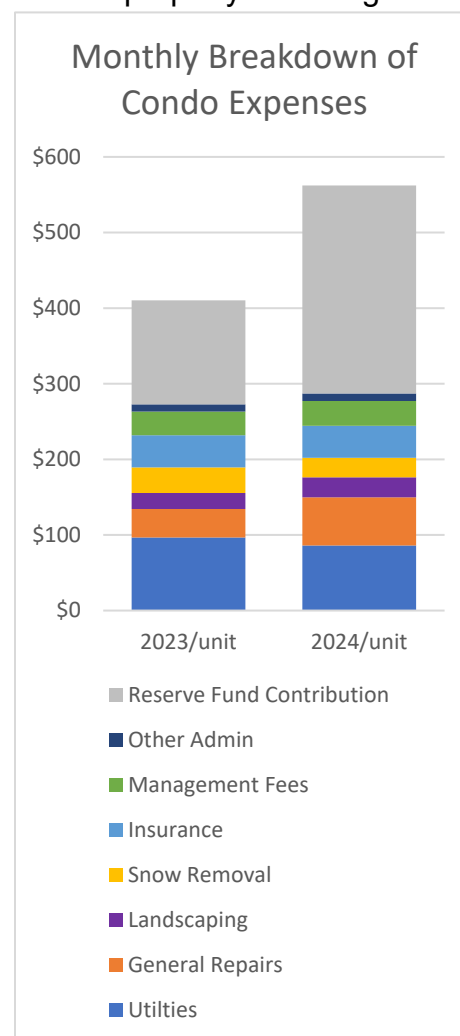

Dear Neighbours and Owners of Sandhamn Private homes,

I hope you're all in good health. I am writing to you as your Condominium Board President with an update that significantly affects our community and the future of our shared homes.

Our property, being on the brink of its 40-year life cycle, necessitates heightened attention to maintenance and repairs to keep it safe, comfortable, and modern. A property of this age and size requires forward-thinking solutions to potential issues, anchored by the financial buoyancy of our corporation. In recent years, inflation, especially around construction costs, has proven to be higher than anticipated in previous reserve fund studies. Subsequently, our maintenance and repair costs have increased considerably, slowing our rate of savings for major repairs, warranting a revisit of our fee structure.

Additionally, major maintenance projects were previously deferred to avoid fee increases at those times over the last decade. Some items, like our community's roadway resurfacing has been deferred since 2015 or potentially earlier. Significant repair work on the building envelopes also appears to have been deferred. This approach, regrettably, has only magnified the cost of these items and is now resulting in a critical risk to our property infrastructure and integrity, and each owner's investment on Sandhamn Private. Over the next years, major maintenance items such as roadways, aluminum and wood siding, fences, decks, and electrical systems will all require major investments to maintain.

It is legal requirement of our corporation and Board to ensure our community's long-term financial stability and resilience, and to support to our maintenance needs for now and the years to come. Please know, we have opted not to follow several drastic funding recommendations proposed by the engineers, including a

\$27,000 special assessment and more radical condo fee increases next year. Instead, we have chosen a more balanced approach that minimizes the financial impact on each owner while still addressing our maintenance and future resiliency. We will defer the major maintenance to the roadways again given the corporations shortfall in funding, now scheduling this work to be completed in 2025.

To further tackle these challenges, our 2024 increase of condo fees will be 36% or \$147/month for a total monthly fee of \$557. The exact financial details are contained in the official notification along with instructions for this increase. When I look at the budget, I look at both the annual operations budget which takes care of operating costs such as snow removal, utilities and insurance, and the reserve fund handles major repair work such as the building envelopes. This increase is therefore allocated as a 5.25% increase in operating budget, and a 100% increase in the contributions to the reserve fund.

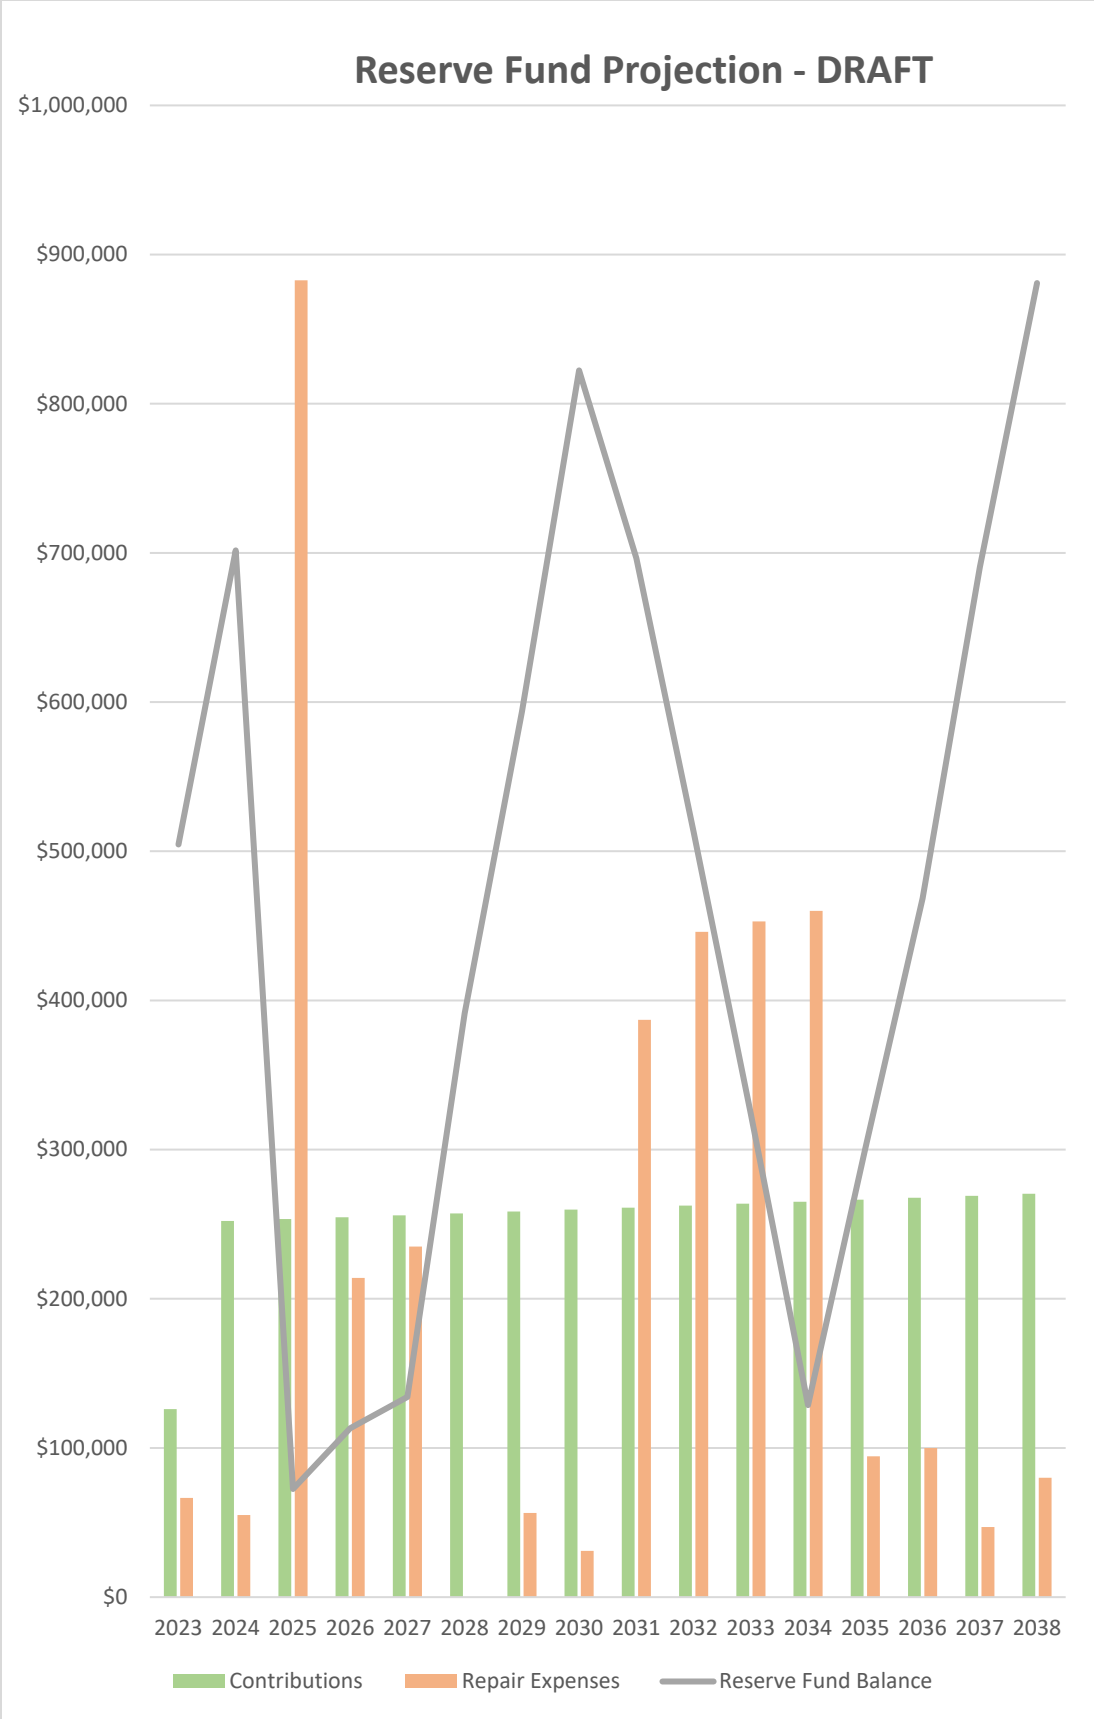

You will see on the final page of this letter, a graphic illustrating the current 15-year plan for major maintenance, please note that the condo act actually requires the corporation to maintain a 30 year positive cashflow plan. This diagram illustrates the required expenditures and planned balance of our reserve fund. While we are significantly increasing reserve fund contributions, this diagram depicts how quickly major maintenance projects can impact our cashflow.

Thank you for your understanding and cooperation. This isn't just about maintaining a property; it's about safeguarding the shared home we love and preserving our property's value for the future. For any immediate concerns or queries about the fee changes, please contact Julie Sigouin or myself. I will also be hosting a town hall early in 2024 to provide additional information on the corporation's finances and the reserve fund.

Regards,

Christopher Hendriks
